

# Your Instrumentation Partner

Surveying | Scanning | Testing | Monitoring

PowerCept Middle East LLC

## Solution Portfolio

## Geophysical GUIDELINEGEO

Utility Location | Bedrock Mapping | Groundwater Penetrating | Mining

Resistivity and Induced Polarization

Seismographic Survey

TEM (Transient Electromagnetics)

Ground Penetrating Radar

## Geospatial STONEX

Precision Survey | GIS Mapping | 3D Scanning | Land & Structure Monitoring

GNSS Surveying

Optical Surveying

3D Scanner

Field and Office Software

## Inspection proceq

Concrete Characterisation | Defect Detection | Corrosion Assessment

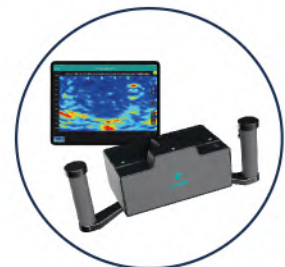

Rebound Hammer

Concrete GPR

Resistivity & Half-Cell

Ultrasound PV and PE

## Environmental, Health & Safety CASELLA

Occupational Hygiene | Environmental Monitoring

A DIVISION OF TSI

Sound Monitoring

Air Sampling and Dust Monitoring

Boundary Monitoring

Body Vibration

## Industrial Materials Testing

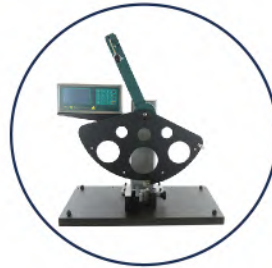

Composites | Metals | Paper | Plastics | Steel/Strand | Waterproofing Membranes

Universal Testing Machine

Melt Flow Indexer

Impact Testing

Universal Hardness Tester

## Civil Engineering Materials Testing

Aggregate | Cement | Concrete | Soil | Rock

Mobile Laboratory

Compression Testing

CBR and Marshall

Los Angeles Abrasion

## Advanced Asphalt Testing

Mix Design | Laboratory Testing | Field Quality Control

Asphalt Density

Asphalt Content

Automatic Specific Gravity (Rice) Test

Nuclear and Non-Nuclear Gauge

## Weighing Solutions

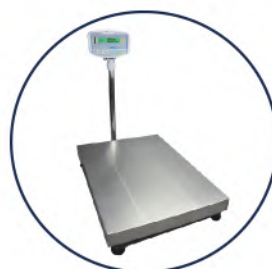

Agriculture | Education | Health | Materials Testing | Manufacturing

Analytical

Moisture Analysis

Platform

Accessories

## Specialist Testing Solutions

Dynamic Fatigue Testing

Cathodic Disbondment

Pile Integrity

Air Quality and Meteorology

## Turnkey Laboratories

Sourcing and Supply

Complete Contemporary Laboratory Solutions

## Training & Service

Installation and User Training

Workshop and Calibration

# Our Purpose

Is to deliver reliable, high-performance solutions which precisely meet your needs efficiently

## Your Partner for Precision Surveying, Scanning, Materials Testing and Monitoring Instruments

Combining 50+ years of regional knowledge and experience in the field of Testing and Measurement across the Dynamic Markets of the Middle East, Europe, India, SAARC and Asia Pacific

Specialising in packaged product and support solutions for Civil Engineering, Materials Testing, Education & Research, Defence and Manufacturing

Providing clients with detailed application advice, customer service, calibration, repair and training

Ensuring value through close relationships with regulatory bodies, technology partners and end users

Empowering local customers with a proven track record of bringing diverse business cultures together with best-in-class engineering solutions
